Removes paints from marble, granite, stones, wood, iron and other surfaces.

Product description:

Ecological water-based biodegradable paint remover, easily applicable with brush without straining on horizontal and vertical painted surfaces of marble, stones, wood, iron, plaster (shutters, doors, windows, furniture, decorations on wall). WALL CLEAN makes easier the removal of any wallpaper.

Chemical characteristics:

Appearance	Creamy gel
Color	Light green
Odor	Light characteristic scent
Specific gravity at 20° C (68° F)	1,10 ± 0,02
Hydro-solubility	Soluble at every ratio
pH	N.A.
Shelf life at 20°C (68° F)	24 months in original container

Instruction for use

Apply WALL CLEAN with brush, spatula or sponge onto the surface to be paint stripped.

In most of the cases, WALL CLEAN active itself "automatically" within 15-30 minutes; if there are several layers superimposed of old paintings to remove, could be necessary 2-3 hours or a second hand of WALL CLEAN.

The product makes soften and inflate the layer of old painting or varnish to be wiped away, making it easily removable by means of a steel scraper or damp sponge; then it is possible to complete the work with a strong sprout of water.

The surface treated, once dried and polished up, is ready to be covered again with enamel or varnish.

Application tools

Brush

Spatula

Brush

Sponge

Suggestion for use and recommendations:

- In case of paints penetrated deeply into porosities of stone materials such as marble and travertine, during removal of WALL CLEAN it is suggested to brush the surface with a plastic or sorghum brush in order to "help" the chemical action of paint stripper.
- If it is necessary to remove a stain of paint on an already painted surface, perform a preliminary test in order to avoid damaging the underlying paint.
- In case of very stubborn paint or varnish, apply a second layer of WALL CLEAN.
- Read carefully recommendations printed on the tin and perform a test before use.
